

AIROVENT™

WHOLE HOUSE VENTILATION

NEW

**LOW ENERGY
DC MOTOR VERSION
ENERGY EFFICIENT**

Airovent provides a choice of continuous, low cost ventilation in new and refurbished dwellings. Conveniently located in lofts and cupboards it will provide excellent, low noise extraction from a combination of the bathroom, en-suites, utility room and kitchen through easy to fit ducting.

By continuously extracting stale, moist air a generally healthier environment is created to help alleviate the problems of dampness and condensation benefiting both the fabric of the building and also occupant health.

APPLICATIONS:

- New domestic properties and refurbishments
- Suitable for houses, flats, apartments and sheltered accommodation
- Extracts from multiple rooms simultaneously

MAIN FEATURES:

- Designed for continuous operation
- Helps reduce condensation problems
- Low noise, long life motors
- Meets Building Regulations, ADF 2006, System 3
- Four inputs duct connections
- Three speeds low, medium and boost
- Higher performance version for larger dwellings (WHV 8 - 14)
- Optional versions with wireless remote control
- Optional accessories for humidity and timer control
- Ducting, grilles and flow control valves available
- Low Specific Fan Power
- Meets BRE Digest 398

NEW: MODEL WHLV-9

Low power, longer life, quieter, efficient
