Installation Guide

### ENHANCE EVERY PROJECT

Enhance your bathroom with Thermomirror®. The Thermonet® feeling brings you the ultimate in comfort, luxury and after sales backup.

**TEN YEAR WARRANTY 10**

### SIMPLE SOLUTION TO A PROBLEM

A fundamental flaw in many bathrooms is that the mirror always steams up when you have a hot bath or shower rendering it useless until the condensation disappears.

Thermomirror® PRO de-steamer pads can be fixed to the back of your mirrors and wired up to the lighting circuit to make sure your mirrors stay condensation free whenever you use the bathroom. It's also possible to wire Thermomirror® to an underfloor heating circuit or movement sensor.

### UPGRADE YOUR BATHROOM EXPERIENCE

Mirror de-steamers are now specified in top new hotel developments or refurbishment projects.

They are popular because it is a relatively inexpensive and simple way to add a high end wow factor to a hotel or apartment bathroom, especially when installed alongside Thermonet® electric underfloor heating.

Enhance the Thermonet® feeling in your project with Thermomirror®.

### See the difference...

Thermomirror® PRO		
STOCK NO	SIZE (MM)	OUTPUT (W)
5300	250 x 500	19
5301	500 x 500	45
5303	1000 x 500	90
5316	1000 x 300	45

Thermomirror® Accessories		
STOCK NO	DESCRIPTION	SIZE (MM)
5318	Double Sided Tape	25 x 5000
5320	Mir-o-bond Adhesive	310ml

### Simple wiring to lighting circuit or PIR sensor

Thermomirror® PRO can be wired into the existing lighting circuit or connected to a PIR movement sensor for efficiency.

### Simply adhere to the reverse side of your mirror

Adhere Thermomirror® PRO to the reverse of your mirror using the self adhesive mounting strips and then mount the mirror onto the wall using either mirror adhesive or mechanical fixings. Take care not to drill through or damage the de-steamer pad if using mechanical fixing methods.
