

# EL-2620

The EL-2620 is a wireless keypad for use with the *infinite* control panel. This keypad is primarily designed as an additional arming station, including three arming keys that enable Full, Part or Perimeter arming modes. Pressing the Full and Perimeter buttons simultaneously generates an SOS panic alarm. Additionally, the keypad may be used to control Home Automation modules.

The Cancel key (⊗) clears the keypad in the event that a key is pressed by mistake while entering a code, for example. This key causes the keypad to disregard what was previously entered enabling the user to start again.

## Registration

1. Set the receiver to Registration mode.
2. Press a button on the keypad making sure that one of the Battery LEDs lights up when the button is pressed.
3. Wait for five seconds and press the same button again.

**Note:** Alternatively, the EL-2620 can be registered to the receiver by manually entering the transmitter's serial number.

## Battery Replacement

Every time a key is pressed, one of the battery status LEDs is lit. When the battery needs to be replaced, the red Low Battery LED is lit.

To replace the battery:

1. Remove the back cover by inserting a small screwdriver into the pry-off slots at the bottom of the unit and twisting.
2. Observing correct polarity, replace the battery.
3. Replace the back cover.

## Technical Specifications

Antenna: Printed on PCB  
Frequency: 868.35, 433.92 or 418 MHz FM  
Current Consumption: 26mA (transmission)  
2µA (standby)

Power: 9V Alkaline Battery  
RFI Immunity: 40V/m  
Operating Temperature: 0 - 60°C  
Dimensions: 130 x 110 x 28mm
