

Installation & Maintenance instructions for SP1-7W-3K.

Important Information

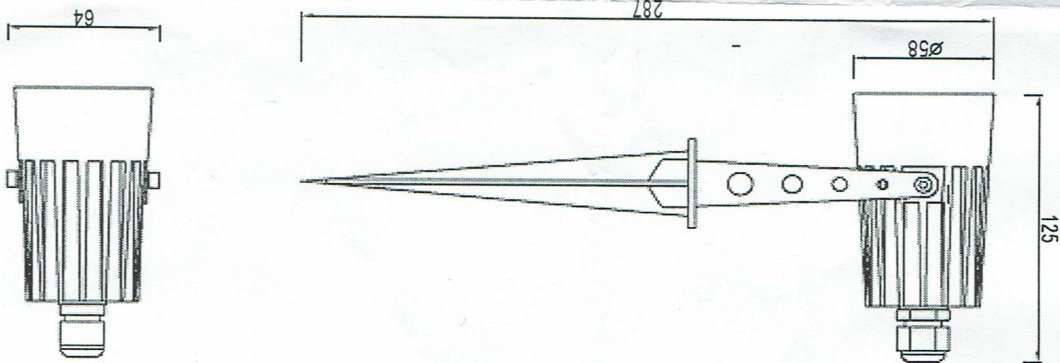

If you do not feel fully confident when dealing with electrical procedures, seek the advice of a qualified electrician. This product must be installed in accordance with the current building and IEE wiring regulations.

Switch off the mains before commencing installation.

These products are designed for connection to a 240V 50Hz supply. Any broken or damaged parts should be replaced as soon as possible. We will not accept responsibility for any claims arising from a poor installation.

Specification

Power Supply	240V 50Hz
IP Rating	IP65
Kelvin	3000K
Lumens	TBC
Class	Class I
Wattage	7W

Installation:

- The fitting should be connected to a mains 240V supply using a suitable waterproof connection box, not supplied.
- Use appropriate cable for your installation. Please refer to the building regulations if unsure. Push your spike light fitting into the ground not going any deeper than the end of the spike.
