The Stainless Steel Range

The Stainless Steel range has brushed stainless steel plates with satin nickel switches and buttons. Offering a more industrial look, it is particularly well suited to contemporary interiors and kitchens. Plates can be cleaned using a small amount of stainless steel cleaner. These are normally spray cleaners and should be sprayed directly onto the cloth and buffed into the plate. We recommend plates are removed from the wall before cleaning to prevent damage to the wall surface. Alternatively place a protective piece of card between the plate and the wall before cleaning.

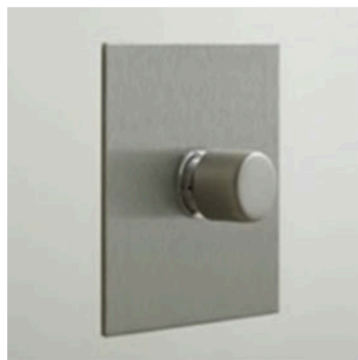

Available in:

Dolly Switch
 Rotary Dimmer
 Button Dimmer
 Rocker Switch

A full range of socket outlets are available, including power outlets, European sockets, telecom and data, audio and visual, fused connection

General Information

- All switches conform to BSEN 60669-1:2018. 13amp sockets conform to BS1363-2:2016 +A1: 2018, 2amp and 5amp sockets conform to BS546:1950
- Single plates measure 86mm x 86mm and double plates measure 146mm x 86mm
- A full range of socket outlets are available, including power outlets, telecom and data, audio and visual, fused connection and floor sockets
- All Forbes & Lomax switches and sockets require British standard 35mm deep flush wall boxes, but we recommend 47mm for ease of installation
