

19.2 watts/m LED Strip

LS-5 Single Row (IP20 non-waterproof)

★ Linear Effect

Product Notes

Teucer LED Strip is manufactured employing some of the highest quality PCB board and LED components available. Adopting a rigorous LED chip binning process, Teucer maintains a consistent CCT on every batch of LED strip produced.

LED strip technical information

Our 19.2w/m LED strip is mounted on a double layer 2 oz. copper PCB to ensure a durable range; using a 3528 SMD chip set, this product provides a high efficiency output of 7-9 Lumens per LED.

Special Feature

With 120 LED chips per meter, this product produces a (non dotted) linear effect.

Note

All Teucer strips come as standard with the highest grade self adhesive, 300MP.

19.2 watts LED Strip MUST be mounted on an aluminium profile (Excluding Teucer AL-0) to guarantee product performance and Teucer warranty.

Max Wattage	19.2 watts / meter
LED Chip	SMD 3528
LEDs per Meter	120 LEDs
Construction	PCB
IP rating	IP20
Fixture	Self Adhesive (300MP)
Voltage	24v
Dimensions	5000mm * 10mm
Cut	Every 50mm
Colour Rendering Index	Ra>80
Beam Angle	120°
Energy Efficiency Rating	A+
Estimated Life	35'000 hours
